MILITARY PRODUCTS

ABOUT ITW MILITARY PRODUCTS

ITW has been providing innovative products to the US Military since 1853. Divisions such as Nexus, Fastex, and Waterbury Buckle are known the world over for their history of Quality and Innovation.

Throughout the years, ITW's breadth of engineered products has expanded exponentially. Now these products and associated technologies are being targeted at value added opportunities in the Military and Defense industries. We are focused on identifying world class technology and developing a broad line of products for today's demanding global situation. ITW Military Products produces engineered and innovative solutions that meet the needs of our customers. Regardless of the challenge, we are there with you.

GHILLIETEX I.R. SIGNATURE REDUCTION

The GhillieTEX™ product line offers the cloaking benefits of IR signature reduction, increased field durability and the high quality standards that have become synonymous with ITW Nexus. Our troops and first responders must trust the equipment they rely on everyday. These products have been designed to enhance survivability in the fierce environment of today's battlefields.

FASTMAG® GEN.III

The FastMAG® GEN.III holds most 5.56mm/.223 ammunition magazines. It reduces reloading cycle time for the operator and can be mounted in the up or down direction (operator's preference). The system eliminates the need for traditional top closures, while providing a secure point of access. The tension system is adjustable to meet the users preference for removal force. The mounting slots on the front allow operators to 'double-stack' or attach nylon accessory pouches using MALICE® Clips, giving even more options for your kit setup.

- GhillieTEX™ IR Signature Reduction Technology
- Compatible with most 5.56mm/.223 ammunition magazines
- Mount to any MOLLE/P.A.L.S. 1" web system, up or down [operators preference]
- Attachment slots for Malice® Clips or double-stacking
- Reduces reload cycle time
- High-impact resistant polymer case with anti-fragmentation properties
- Magazine stays secure without pouch flap, hooks, cover, or lid
- Tension strap can be moved up or down for additional friction
- Duty belt version available

The FASTmag® is designed, developed and manufactured by Down East Inc.

..... INTRODUCING.

FASTMAG®

MOLLE/P.A.L.S. COMPATIBLE

PISTOL

The FastMAG® Pistol (FMP) is built from the same hi-strength, GhillieTEX® IR reducing, anti-fragmentation polymer as the original FastMAG®. Our new FMP reduces reloading time for the operator and can be mounted in the up or down position. This system eliminates the need for traditional top closures, while providing a secure point of access. The magazine tension system is adjustable to meet the users preference for removal force. The PistolMAG® version will mount to the FastMAG® Gen III 5.56mm Mag carriers and will also mount to standard duty/patrol/rigger belts. Comes with the removable duty belt spacer.

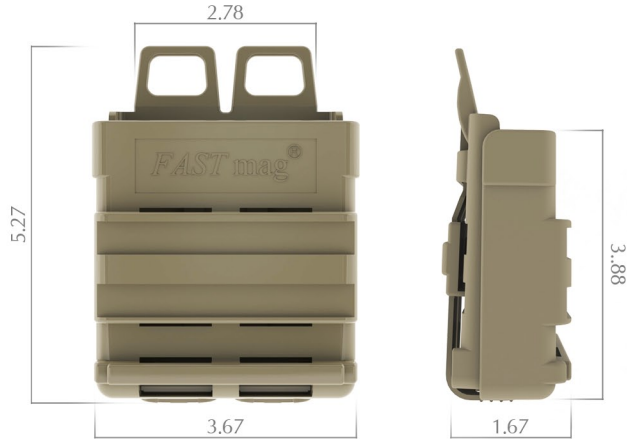

..... INTRODUCING.

FASTMAG®

MOLLE/P.A.L.S. COMPATIBLE

HEAVY

Also introducing to the FastMAG® line is the FastMAG® HEAVY (FMH). It is designed to accommodate most 7.62 x 51 ammunition magazines. The FMH follows the traditional design and features of the FastMAG® Gen.III and maintains the key performance characteristics including low profile and adjustable friction removal force system. The FMH Accepts all FastMAG® variants for double stacking.

MAG BOOT GEN.II

PATENT PENDING

The *ITW* Military Products MagBOOT is designed to provide enhanced grip and stability for most 5.56mm/.223 magazines. Built tough, the MagBOOT provides slip resistant handling in tough environmental and gloved hand operations. It also provides a better base for unique firing situations. The Tan, Coyote Brown, Flat Dark Earth and Foliage Green colors offer IR compliance to provide better signature management and the enhanced material provides a buffer for noise reduction. Booting up has a whole new meaning!

- GhillieTEX™ IR signature reduction technology
- Enhanced Grip/Slip-resistant surface
- Noise reduction properties
- Lightweight [1.5 oz]

- CALL OUTS
1. GhillieTEX I.R. Reduction Technology
 2. Raised Finger Grip
 3. Expanded Baseplate Cover

I.C.E.P.S. PROTECTIVE BAGS [X-PROOF]

The I.C.E.P.S. [INDIVIDUAL CLOTHING & EQUIPMENT PROTECTION SYSTEM] is the next generation of protection and organization for your clothing and equipment. Sand, water, dust, dirt, mud and any other environmental challenge equals the x-factor of conditions. It means the difference between wet and dry, usable or not usable, easy access or a gear dump to find the items you need.

X-PROOF™ answers the call with a next generation, high strength, Protection Plus System (PPS). Taking the fight to our enemies is what we do and X-PROOF™ has mother nature in retreat.

- High strength construction
- Double top closure system
- Reinforced seams
- Space saving compression bags (Roll-Vac™)

SIZES:

Admin Bag [7" x 8"]
Roll-Vac™ Bag [15" x 18"]
Pack Liner [17" x 22" x 5"]

1. BodahPak Tote
 2. 1.5 Liter Inner Bladder
 3. Activator Pouches
 4. 7 oz. Flexi-cup
 5. 90 Gram FRH's

BODAHPAK®

BodahPak® is a patent pending insulated, reusable system designed for military and commercial use. The use of a non-toxic, biodegradable Flame-less Ration Heater (FRH) creates the capability to produce hot water without using volatile fuels. The BodahPak® system is light weight and has an easy roll and stow strap for space saving storage. BodahPak® is so versatile, it is being evaluated by the U.S. Army for potential uses.

- Can be used repeatedly with the purchase of additional Flame-Less Ration Heaters and activators
- Insulated carrier cover with pocket, handle and roll up strap
- Hang and carry strap with D-rings
- Reusable, flexible, collapsible cup [BPA Free]
- Available in multiple patterns and colors

CONTENTS:

- 1- BodahPak® tote
- 1- 1.5 Liter (50.7 oz.) inner bladder
- 1- 7 oz. flexi-cup
- 2- 90 Gram flame-less ration heaters
- 2- Activator pouches

M.A.S.H. HOOK

The new M.A.S.H. [METAL ATTACHMENT SLING HOOK] Gateless Snap Hook from *itw* Waterbury Buckle offers users many advantages over traditional snap hook designs. It is specifically designed to eliminate gate failures.

- No "gate" to get snagged
- Low profile
- Oversized thumb tabs for easy operation
- Stainless steel construction
- No springs or pins to break
- Greater range of motion

- CALL OUTS
1. Enhanced Overlap Opening
 2. Oversized Thumb Release Tabs
 3. Stainless Steel Construction
 4. Available In Two Sizes

09267-23-BLACK

C.L.A.S.H. HOOK

The C.L.A.S.H. Hook [Conventional Latch Attachment Snap Hook] was designed to meet the needs of sling and strap applications that require a quick-on feature with spring loaded retention gate. The body is made from one solid steel stamping and has a slot designed to accept 1" webbing for weapon slings. If your application demands an all metal heavy tensile load system, C.L.A.S.H. Hook is the easy choice.

- Low profile
- One-piece stamped body
- High load bearing rating
- Spring loaded retention gate

QUICK CAP CONNECTOR [QCC]

The QCC products are designed to allow a pre-set of the blasting cap (either time delay or high strength). With the breacher in mind the QCC allows the operator a secure system of interface with the det cord. Additionally, the small plastic tabs on the end allow you to secure the assembly with plastic zip ties for additional security needed. The colors indicate QCC identity and correlates to the specific cap size. The CDDI and CDDD have the added feature of shock tube slots.

- Field Expedient adaptors to be utilized with Modernized Demolition Initiations [MDI]
- Chemical resistant material
- Color and texture coded for easy identification in the field
- Small form factor for easy use and storage
- Quick-Tie compatible for greater strength

- CALL OUTS
1. Release Latch
 2. MOLLE Attachment Point
 3. Sand Purge Port
 4. D-Ring
 5. Pivot Hinge

GRIMLOC

The GrimLOC is designed for use in all environments as a lightweight corrosion resistant replacement for heavy metal carabiners. The high strength polymer structure easily supports weapon sling connection points to body armor, and features a break away design to eliminate snags. The GrimLOC is perfectly suited for connecting your tactical accessories that require quick and easy one-handed access.

- GhillieTEX™ IR signature reduction technology
- Corrosion resistant stainless steel spring and plastic
- Lightweight
- Resistance to solar heating
- Break-away feature
- Textured grip for use with wet/gloved hands
- Self Purging [SP] ports to eliminate sand from blocking the mechanism
- Attaches to 1" webbing

TAC LINK

The Tac Link is a high strength polymer attachment device with GhillieTEX™ IR signature reduction technology. This product has considerable weight and cost savings over metal carabiners. All of the external components are high strength molded polymer, which eliminates metal noise and paint scratches.

- GhillieTEX™ IR signature reduction technology
- Corrosion resistant stainless steel spring
- High strength polymer design
- Weight savings compared to metal carabiner
- Resistance to solar heating
- Textured grip for use with wet/gloved hands
- Large latch opening eliminates snags
- Eliminates metal-on-metal noise and paint scratches
- Use for securing tactical accessories

- CALL OUTS

 4. 1" Webbing Attachment

WEB DOMINATOR

The Web Dominator is designed to assist operators in securing their loose nylon web straps, and to help tie down any items that you don't want hanging off your kit. The Web Dominator is the perfect solution to secure your hydration tube or communication gear in a custom position to suit your own personal set up. The field replaceable design allows you to install and remove without cutting or sewing. The elastic cord knot can be modified for securing large or small items or bundles of webbing. Eliminate those nasty hanging web straps that present potential trip and snagging hazards by installing the Web Dominator on your gear.

- GhilleTEX™ IR Signature Reduction Technology
- Eliminates excess webbing trip/snag hazards
- Split bar field replaceable feature
- Secures webbing, cords, wires, excess materials
- Elastic shock cord
- Easy adjustment
- Silent
- Can be attached to 1" webbing

QUICK ATTACH SYSTEMS

Quick Attach Hardware Systems have become a mission essential accessory for today's warfighter! Products like the QASM are a perfect solution for customizing your MOLLE/P.A.L.S. load out kit to specific mission requirements, or to help provide the right ergonomic positioning for proper body fit and item access. Quick Attach System Hardware gives you the capability to continue the mission without cutting or sewing your straps, uniforms, or nylon fabric.

CONTENTS:

- QASM - Quick Attach Surface Mount 1" Buckle
- GTSR Female Body Surface Mount 1" Buckle
- GTSR Surface Mount 1" Backplate
- Split Bar GhillieTEX 1" Ladderloc
- Split Bar Sternum Adjuster [1" x .75"]

WARRIOR WIPE

Warrior Wipes is an antimicrobial hand sanitizer. The Warrior Wipe is individually packaged and includes a dual purpose cloth wipe which is coarse on one side. The coarse cloth is designed to assist germ/bacteria removal. This product was designed to reduce weight and save space inside a pack system. Instead of carrying an entire bottle of hand sanitizer, carry the Warrior Wipes for your next mission down range.

- Patented wipe technology
 - Coarse on one side for deep cleansing
 - Smooth on other side
- Antimicrobial formula
- Kills 99.9% of germs
- No mess
- Innovative coarse texture ensures deep and effective cleaning
- No need to rinse
- Conditions and moisturizes skin
- Eliminates need to carry bottle

- CALL OUTS
1. Easy Open Package
 2. 6" x 8" Towel
 3. Patented Wipe Technology
